- How to Give a Speech**
 - Contact with the audience:** Make eye contact with your listeners, ask them questions, and give them time to think.
 - Don't worry, be happy!** Don't panic if something goes wrong! You can laugh, then concentrate, and start again or continue with your speech.
 - Presentation techniques:** Present your speech with your whole heart, mind, and body. Speak loudly enough, clearly, slowly, and make pauses.
 - Know your talk:** Have your list of arguments in your head and your notes/text ready.
 - Structure:** Structure your speech well: start with an interesting introduction, present good arguments in the main part, end with an inspiring conclusion.
- Practising Your Speech**

Group work
If you present the speech in a group, divide it in different parts. Who will say what? Practise together.

The text
A. Highlight important words in your speech, questions, and mark pauses.
B. Type your speech on a computer and save it on a USB flash-drive.
Tip: If you have internet you can use CuePrompter online to practise and/or present your speech.

Practise presenting
Practise the speech in front of a mirror or a classmate. You can also record your voice to make a film. Make sure your eyes aren't always on your text! Look at the audience.

"Dress rehearsal"
Practise the speech one last time. Make yourself look presentable and have your materials ready.
